Educational Programming

- Addiction in the ICU: Dealing with Iatrogenic Addiction and Withdrawal
- Adding It Up: Applying New Data to Management of Pediatric ADHD
- An Unforgettable Session: The Pharmacist's Role in Mild Cognitive Impairment
- Anti(X)dotes for All? The Role of Replacement and Reversal Strategies in Managing Life-Threatening Bleeding and Emergent Procedures for Patients on Factor Xa Inhibitors
- Anticoagulation Stewardship: Meaningful Movement, Improved Outcomes
- Beyond the Standard: Maximizing Treatment to Reduce Residual Cardiovascular Disease Risk
- Building Blocks to Improve Pediatric Medication Safety
- Childhood Immunizations: When the Immunization Schedule Doesn't Work
- Clinical Conundrum: Acute Pain Management in the Patient with Opioid Dependence
- Complex Compounded Sterile Preparations: Just Because I Can, Does It Mean I Should?
- Controversies Surrounding Antithrombotic Therapy Following Transcatheter Aortic Valve Replacement
- COVID-19: Care of the Critically Ill Patient: A Focus on the Management of Acute Respiratory Distress Syndrome and Coagulopathy
- COVID-19: Challenges and Considerations for Pain and Sedation Management in Mechanically Ventilated Patients with COVID-19
- Data in Action! Best Practices in Pharmaceutical Data Analytics Programs
- Detox the Water: Practical Strategies for Implementing a Successful Drug Waste Disposal Program
- Dose, Selection, Volume, and Timing — Establishing the Therapeutic Index of Fluids in Sepsis
- Easing the Pain of Opioid Use Disorder Management in the ED
- Efficacy to the Max: Dose Optimization for Beta-Lactams with Beta-Lactamase Inhibitors
- Finally, Maximizing Triglycerides Leads to Lower Cardiovascular Risk
- In Sickness and in Health: Cardiorenal Benefits and Risks of Newer Diabetes Medications
- Increase Your Tolerance to Antibiotic Allergies in the Ambulatory Setting
- It's Alive! Managing Cell and Viral Vector Therapies in the Pharmacy
- IV Gravimetric Preparation: A Silver Bullet or Another Slice of Swiss Cheese?
- Just the Cannabis Facts Please: A Review of Published Research in Immunology and Oncology
- Managing Menopause: A "Hot" Topic
- Managing Sepsis in the Older Adult
- Not so FAST — Engaging in SLOW Decision Making for Secondary Stroke Prevention
- Novel Uses for Direct-Acting Oral Anticoagulants
- On Your Mark, Ready, Set...Should We Go? An Update on Acute Kidney Injury Biomarkers
- Oncology Supportive Care: Navigating the Expanding Realm of Oral Small Molecule Inhibitors
- Optimizing Diabetes Management Through Continuous Glucose Monitoring
- P VALUEable? Purpose, Use, and the Evolution of P Values in Statistical Reporting
- Psyching Out Your Opponent — A Debate on the Use of Antipsychotics in the ICU
- Reviewing the Clinical Utility of Pharmacoepidemiologic Data for Managing Drug-Drug Interactions
- Roadmap for Successful Adoption of Biosimilars: Clinical, Operational, and Payer Coverage Considerations
- Safe Practices for Drug Allergies: Using Decision Support and Health Information Technology

- Sodium-Glucose Cotransporter-2 (SGLT2) Inhibitors in Heart Failure Patients with or Without Diabetes
- Speaking from the Heart: Great Debates in Cardiology
- Specialty Pharmacy Impact: Optimizing Clinical Outcomes in Hepatitis C Negative Transplant Recipients Receiving Hepatitis C Positive Organs
- Story Telling with Data: Leveraging Dashboards to “Wow” Executives
- Take a Deep Breath: Updates in Asthma and COPD Management
- The Effects of Augmented Renal Clearance on Antibiotics in Critically-ill Adult and Pediatric Patients: The Need for Exposure Guided Dosing
- The Future of Safe Pain Care Starts Here: Eliminating Missed Opportunities and Connecting Care with Pharmacist Providers
- The Room (or Hospital) Where It Happens — Implementing “Handshake” Antimicrobial Stewardship Rounds in a Hospital Setting
- The Updated National Patient Safety Goal on Anticoagulation: Key Clinical Practice Considerations
- The Weight of the World: Obesity Strategies and Controversies
- Therapeutic Debates 2020
- Truth Be Told: Strategies for Setting Expectations in Pain Management
- Vancomycin + Piperacillin Tazobactam: Does It Kill Your Kidneys?
- Vancomycin Therapeutic Drug Monitoring — The Times They Are a Changin’
- Why Am I Only Offering Oncology Pain Patients Opioids? Is There Anything Else, Anything at All?
